

POPULATION : ARIZONA

COMPOSITION AND CHARACTERISTICS OF THE POPULATION

Prepared under the supervision of WM. C. HUNT, Chief Statistician for Population

The first population bulletin for Arizona gave the number of inhabitants by counties and minor civil divisions, the decennial increase and the density of population, and the proportions urban and rural. The present bulletin deals with the composition and characteristics of the population. The two bulletins cover all the principal topics of the population census except occupations and ownership of homes.

Description of the tables.—The greater part of this second bulletin consists of three general tables, which present statistics of color, nativity, parentage, sex, citizenship, illiteracy, school attendance, and dwellings and families, as follows: Table I for the state and counties; Table II for the two cities of over 10,000 inhabitants; and Table III for places of 2,500 to 10,000.

A series of summary tables (numbered 1 to 12) reproduces from the general tables the more important state totals, and presents also certain additional data relative to state of birth, age, and marital condition.

On account of the wide differences in characteristics among the different classes of the population, the statistics on each subject are shown according to race, and for the whites according to nativity and parentage. Classification according to nativity and parentage is scarcely necessary for the other races; since nearly all negroes and Indians are native born of native parentage, and nearly all Chinese and Japanese either foreign born or of foreign parentage.

The white population is divided into four groups: (1) Native, native parentage—that is, having both parents born in the United States; (2) native, foreign parentage—having both parents born abroad; (3) native, mixed parentage—having one parent native and the other foreign born; (4) foreign born. As the second and third classes do not differ greatly in characteristics, they are combined in some of the tables; in a few cases all three native white classes are combined.

Since marked differences often exist between urban and rural communities with respect to the composition and characteristics of the population, the two classes are distinguished in connection with several of the subjects. Urban population, as defined by the Bureau of the Census, includes that of all incorporated places of 2,500 inhabitants or more, the remainder being classified as rural.

The census inquiry as to school attendance was merely as to whether the person enumerated had attended any

kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The Census Bureau classifies as illiterate any person 10 years of age or over who is unable to write, regardless of ability to read.

Color and nativity (Table 1).—Of the total population of Arizona, 82,468, or 40.4 per cent, are native whites of native parentage; 42,176, or 20.7 per cent, are native whites of foreign or mixed parentage; 46,824, or 22.9 per cent, are foreign-born whites; and 29,201, or 14.3 per cent, are Indians. The corresponding percentages in 1900 were 36.5, 20.9, 18.2, and 21.5, respectively. In 8 of the 13 counties at least 20 per cent of the population is white of foreign or mixed parentage, and in 7 counties more than 20 per cent is foreign-born white. In Santa Cruz County 42.3 per cent of the population is foreign-born white, and only 22.8 per cent is native white of native parentage. (See maps on a following page.)

Of the urban population, 42.1 per cent are native whites of native parentage; of the rural, 39.6 per cent. The corresponding proportions for native whites of foreign or mixed parentage are 26.1 and 18.2 per cent, respectively. The percentage of foreign-born whites is 27.2 in the urban population and 21 in the rural; the percentage of Indians is 1.2 in the urban and 20.1 in the rural. The Indian population is almost exclusively rural, only 2.6 per cent living in urban communities.

Sex (Table 2).—In the total population of the state there are 118,574 males and 85,780 females, or 138.2 males to 100 females. In 1900 the ratio was 140.4 to 100. Among native whites the ratio is 129.3; among foreign-born whites, 188.4; and among the Indians, 106.4 to 100. In the urban population there are 126 males to 100 females, and in the rural, 144.2.

State of birth (Tables 3 and 4).—Of the native population—that is, population born in the United States—50.7 per cent were born in Arizona and 49.3 per cent outside the state; of the native white population, 59.5 per cent were born outside the state; of the native Indians, 1.9; and of the native negroes, 85.5 per cent.

Foreign nationalities (Table 5).—Of the foreign-born white population of Arizona, persons born in Mexico represent 62.9 per cent; England, 7.5; Germany, 3.9; Canada, 3.9; Ireland, 3.3; Italy, 3.3; Austria, 3.2; Spain, 1.8; Sweden, 1.8; Scotland, 1.2; Finland, 1.2; all other countries, 6. Of the total white stock of

foreign origin, which includes persons born abroad and also natives having one or both parents born abroad, Mexico contributed 57.4 per cent; England, 8.2; Germany, 6.3; Ireland, 5.5; Canada, 4.4; Italy, 2.5; Austria, 2.2; Sweden, 1.8; Scotland, 1.7; Spain, 1.

Voting and militia ages (Table 6).—The total number of males 21 years of age and over is 74,051, representing 36.2 per cent of the population. Of such males, 38.8 per cent are native whites of native parentage, 14.4 per cent native whites of foreign or mixed parentage, 34.7 per cent foreign-born whites, 9 per cent Indians, 2 per cent Chinese and Japanese, and 1 per cent negroes. Of the 25,682 foreign-born white males of voting age, 5,912, or 23 per cent, are naturalized. Males of militia age—18 to 44—number 58,962.

Age (Tables 7 and 8).—Of the total population, 12.1 per cent are under 5 years of age, 19.6 per cent from 5 to 14 years, inclusive, 18.7 per cent from 15 to 24, 33.7 per cent from 25 to 44, and 15.6 per cent 45 years of age and over. The proportion of children is highest among native whites of foreign or mixed parentage, and next highest in the Indian population. The foreign-born white population comprises comparatively few children, only 11 per cent of this class being under 15 years of age, while 70 per cent are 25 years of age and over. Of the native whites of native parentage, less than one-half (47.3 per cent) are 25 and over, and of the native whites of foreign or mixed parentage only a little more than one-third (35.3 per cent).

The urban population shows a smaller proportion of children than the rural, and a larger proportion of persons in the prime of life. Of the urban population, 37.1 per cent are from 25 to 44 years of age, inclusive, and of the rural population, 32.1 per cent.

School attendance (Table 9).—The total number of persons of school age—that is, from 6 to 20 years, inclusive—is 56,897, of whom 30,355, or 53.4 per cent, attended school. In addition to these, 490 persons under 6 and 501 of 21 and over attended school. For boys from 6 to 20 years, inclusive, the percentage attending school was 52.5; for girls, 54.3. For children from 6 to 14 years, inclusive, the percentage attending school was 67.2. The percentage for children of this age among native whites of native parentage was 80.4; among native whites of foreign or mixed parentage, 72.1; among foreign-born whites, 61.6; among Indians, 34.1. Of the small number of negro children aged 6 to 14 years 81.5 per cent were attending school. (See Table I.) The percentage at school for children aged 6 to 14 is higher in urban than in rural communities.

Illiteracy (Table 10).—There are 32,953 illiterates in the state, representing 20.9 per cent of the total population 10 years of age and over, as compared with 29 per cent in 1900. The percentage of illiteracy is 72.9 in the Indian population, 31.5 among foreign-born whites, 7.2 among negroes, and 4.2 among native whites.

For all classes combined the percentage illiterate is 9.9 in the urban population, and 26.1 in the rural. For each element of the population the percentage illiterate is higher in rural than in urban communities.

For persons from 10 to 20 years, inclusive, whose literacy depends largely upon present school facilities and school attendance, the percentage illiterate is 18. (See Table I.)

Marital condition (Table 11).—In the population 15 years of age and over, 45.8 per cent of the males are single, and 22.2 per cent of the females. The percentage married is 47.7 for males and 65.7 for females, and the percentage widowed 4.4 and 10.5, respectively. The percentages of those reported as divorced, 0.8 and 1, respectively, are believed to be too small, because of the probability that many divorced persons class themselves as single or widowed.

That the percentage single is so much smaller for women than for men, though partly accounted for by the excess of males in the total population of the state, is due largely to the fact that women marry younger than men. Thus 20.3 per cent of the females and only 2 per cent of the males from 15 to 19 years of age are married; 64.5 per cent of the females and 20.6 per cent of the males from 20 to 24 years; 82.5 per cent of the females and 51.9 per cent of the males from 25 to 34 years; and 83.2 per cent of the females and 66.5 per cent of the males 35 to 44 years of age. In the age group 45 and over the difference practically disappears, the percentage married being 61.3 for females and 62.5 for males. That there is a larger proportion of widows than of widowers may indicate that men more often remarry than women, but, since husbands are generally older than their wives, the marriage relationship is in fact more often broken by death of the husband than by death of the wife.

For the main elements of the population the percentages of married persons among those 15 years of age and over are as follows: Foreign-born whites, 47.9 for males and 68.2 for females; native whites of native parentage, 46.5 and 66.4, respectively; native whites of foreign or mixed parentage, 40.7 and 60.2; Indians, 61.6 and 67.6.

These percentages by no means indicate the relative tendency of the several classes as regards marriage. To determine that, the comparison should be made by age periods, since the proportion married in any class is determined largely by the proportion who have reached the marrying age. Similarly, the proportion widowed depends largely on the proportion past middle life. The percentage married for females is higher in rural than in urban communities; for males the percentages are practically the same.

Dwellings and families.—The total number of dwellings in Arizona is 45,386, and the total number of families 47,927, there being 105.6 families to each 100 dwellings. (See Table I.) The average number of persons per dwelling is 4.5, and the average number per family, 4.3.

¹ See explanatory notes below.

NOTES REGARDING CHANGES IN BOUNDARIES, ETC.

COUNTIES.

APACHE.—Organized from part of Yavapai in 1879; part taken to form part of Graham in 1881; part taken to form Navajo in 1895.
 COCHISE.—Organized from part of Pima in 1881.
 COCONINO.—Organized from part of Yavapai in 1891.
 GILA.—Organized from parts of Maricopa and Pinal in 1881.
 GRAHAM.—Organized from parts of Apache and Pima in 1881.
 MARICOPA.—Organized from part of Yavapai in 1871; part of Pima annexed in 1873; parts taken to form part of Pinal in 1875 and part of Gila in 1881.
 NAVAJO.—Organized from part of Apache in 1895.
 PIMA.—Part taken to form part of Pinal in 1875; parts annexed to Maricopa in 1873 and Pinal in 1877; parts taken to form Cochise and part of Graham in 1881 and Santa Cruz in 1899.
 PINAL.—Organized from parts of Maricopa, Pima, and Yavapai in 1875; part of Pima annexed in 1877; part taken to form part of Gila in 1881.
 SANTA CRUZ.—Organized from part of Pima in 1899.
 YAVAPAI.—Parts taken to form Maricopa in 1871, Apache in 1879, Coconino in 1891, and part of Pinal in 1875.
 NOTE 1.—Population for Gila County and estimated population (2,272) for that part of San Carlos Indian Reservation now in Gila County—1900, 7,245; increase,

1900-1910, 9,103; per cent of increase, 125.6. Rural population—1910, 9,265; same territory in 1900, 5,750; per cent of increase, 1900-1910, 61.1. Rural population—1900, 7,245.

NOTE 2.—Population for Graham County and estimated population (793) for that part of San Carlos Indian Reservation now in Graham County—1900, 14,955; increase, 1900-1910, 9,044; per cent of increase, 60.5. Rural population—1910, 19,125; same territory in 1900, 14,955; per cent of increase, 1900-1910, 27.9. Rural population—1900, 14,955.

NOTE 3.—In computing this increase the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make that total comparable with the total for 1890 which does not include the population of Indian reservations. The population thus deducted in the several counties was as follows: Apache, 5,341; Coconino, 1,113; Gila, 709; Maricopa, 2,451; Navajo, 5,027; Pima, 1,543; Pinal, 2,954; Yuma, 553.

INCORPORATED PLACES.

BISBEE.—Incorporated in 1902.
 CLIFTON.—Incorporated in 1909.
 DOUGLAS.—Incorporated in 1905.
 GLOBE.—Incorporated in 1907.
 YUMA.—Incorporated in 1902.
